Dr. Bort has had a very successful visi during his absence from here to Evansville The prees of that city speak in the highest terms of many cures he has performed during his stay there. Three cures in particular one was that of Mr. James Akins, Esq., who had been deaf for over forty years and was restored in a remarkable short time. An other was that of Mrs. Mever, who had been blind for upwards of twenty-two years. She could not see a particle of light for eighteen years. She was operated on by Dr. Bort and now can see Another case was that of a child of Mr. Amos Mocmeyer. The child is now 13 years of age and has not heard or spoken a word for over Il years, caused by Scarlet Fever. Dr. Bort restored her hearing and speach so she now can talk and heal very distinctly

Dr Bort will arrive in Terre Haute on the Tuesday afternoon train from Evapaville November 1st, and will remain until Thursday afternoon November 3d. Those dealeous of consulting him should be on hand as soon sa presible, as no doubt his rooms will be growded during his sport stay here. [For the Datie Express] A Vision of the War, Its Spread Termination; and the Future

On the 6th day of Occober 1864, while itting to a room with four other persons conversing with Spirits, at the residence of Nathan Bond, Greensfork, Wayne County Ind ; a vision of the war, its pregress, termination and the final results, was shown to me; and I was made to describe it as I saw it at the time, and while it was being pre-

I saw a terrible battle, as it were, raging in the South-East, between vast armies o soldiers; and there was great slaughterand the armies appeared to spread wider and wider until they appeared to reach the extreme South-West, as the battle appeared t extend in a Southerly direction, I could listinctly see the smoke rising from the arillery and infantry; and could see the flasher of light from the cannon's mouth; and see men falling by hundreds and thousands -Then it commenced spreading Northward and on it came aweeping over the whole country, taking every thing before it And hen the suffering that I beheld, and the mosning which I heard, was as great, that my spirit appeared to sink within me; and I beged the Holy Spirit to draw the vell; for felt that I could bear the sight no longer. Oh! the sight was so terrible. The whole country seemed one vast battle-field, one vast sea of war and blood, from which I saw appeared to be as though at the twilight of eve. My attention was next directed to the "Old Fing" of my country, the "Red, White and Bine," with the Eagle in the center the blue; which I now saw proudly floating above this see of carnage and death. Then he Spirit said that the Eagle represented tyrappy and pirsey, and that we had been nation of this was and plrates, that we had sold our brothers and sisters into slavery. and that our government had lived by their hat the Eagle was the true emblem of hieves; for Eagles live by thieving. Then I saw an Angel out forth his hand and so con the Eagle from the blue in the flag, and tear out the stripes of red; for he said that red was an emblem of war and bloodshed. He

thes showed me a flag of pure White and Bine. And in the center of the bine, where I the Eagle was he placed a beautiful Bull He then said to me, that the walte was an emblem of ourity, the blue of track and the smb of inposeuse.

And as he repovated the old fire and made or anew, the see of mar abased and gredually cleared away. When the heavens had again become clear and secone, I saw appear ing green and fertile plains, with beautiful rileges. And as i still looked; I saw the whole occassy become beautiful and still more lovely; audi my whole being was thrilled with delight and Joy. The sight was then levely and transporting to look upon. In the presence of God and angels, 1 arow the above is the truth as hear as I can W. NIDERT.

THE attention of the public is called to the above Furnaces, as they combine ventilating with heating qualities.
The inventor has, after years of experiments, succeeded in perfecting what he claims to be the best Fornace new in use Among the many ad-vantages over the o dinary furnaces, are: The small amount of fuel required to keep it in Keeping the rooms constantly supplied will pure, fresh air, drawn from Nature's in exhaust bis stock out of doors, which, by a recent improve ment, purifies, thereby avoiding all dust
Large Air Chambers, avoiding the confinement
of hest in heated walls and hot-metal chambers.
Improved Water Chambers, which keep up a
steady supply of moisture, which overcomes the
great objection to ordinary Hot air Furnaces.
The castings are heavy, and strongly belied to
gether, guaranteeing durability under any degree
of heat.

Particular attention is called to the Self-regulating Arrangement of this Furnace, which has been precoonneed by business man to be the BEST EVER MADE. Every Furnece warrented to give entire
